

RD210L

19" rack drawer - 2 unit - with key lock

Product information:

The RD210L is a solid 19" rack drawer made of 1.2 mm thick cold rolled steel which is finished in a black (RAL9004) powder coating. This fine structured finish ensures an improved scratch resistance. These rack drawers can be used for storage of any belongings related to the rack mounted equipment, such as: cables, microphones, wireless transmitters, headsets, remote controls, instruction manuals, etc. The full extension bearing drawer slide contains a coupling mechanism which allows removal of the drawer. Available with (RD210L) or without key lock (RD210).
